INTRODUCTION

>About the Company

Ansu Engineering Works, established in 1985, has extensive experience in the manufacture of Electric Fans of Different kinds like Ceiling Fan, Table Fan, Air Circulator Fan, Pedestal Fans etc. The company is ISO 9001:2015 Certified and having ISI Certification.

The company is fully equipped with the latest state-of-the-art infrastructure as per International Standard and adopting the latest technical know – how with the help of the best professionals in the country. The In-house designing, developing, manufacturing and marketing has helped the growth at par with the major players in the same trade.

Vision

To become the market leader in India for the design, look, quality, supply and service management to the entire system with ground level support to distributor and dealers through strategic co-operation with proven market leaders of the industry.

Mission

To supply quality products and services that exceed the expectations of our customers in a time period and at a price that is beneficial to all Consumers, Distributor and Dealers without any negative environmental consequences.
